

Deadbolts

Deadbolts

007 & 008 Series Deadbolts

The 007 Series of heavy duty deadbolts is suitable for residential, commercial and architectural applications.

Features & Specifications

360° key rotation drives the bolt to the deadlocked or unlocked positions.

Key cannot be removed until the bolt is fully deadlocked or unlocked. This feature prevents any unauthorised manipulation of the bolt.

Positive Deadlatching

A unique feature of the 007 and 008 Series is the secure and positive deadlocking of the bolt.

Double Security Fixing

Two fixing systems prevent unauthorised removal of the cylinders from the door. The cylinder fixing system prevents the removal of the cylinders unless the correct key is inserted in the inside cylinder and rotated 45° to allow the cylinder fixing screws to be removed.

For additional security, thief deterrent one-way screws are provided to secure the tapered cylinder protectors.

These screws are concealed behind a cylinder trim.

High Security Strike

The 007 strike assembly comprises a strike plate and a drawn steel strike box. Five screws fix the strike assembly to the jamb. Considerable additional strength and security is achieved through one of the screws being angled towards the centre of the jamb. This fixing system is designed to resist impact and jemmy attacks.

Materials

High purity zinc alloy roses and turnknobs.
Zinc plated steel pressings and pressed brass trims.

Backset

60 mm.

Bolt

Solid brass 25 mm projection.
Fitted with two hardened steel roller inserts.

Door Thickness

35 to 52 mm.

Cylinder

5 pin tumbler mechanism.
Brass cylinder and brass barrel.

Keying

Standard Keying

Supplied individually keyed with two keys per lock.

78,000 key combinations.

Key blank KB500-134.

Special Keying

Can be keyed alike, master keyed, grand master keyed, maison keyed or construction keyed in Lockwood security keying systems.

To order, add keying code to part number.

Standard Finishes

Bright Chrome	CP
Satin Chrome	SC
Florentine Bronze	FB
Polished Brass Plate	PBP

Ordering Procedure

Specify function, number, finish code, DP if display packed, or special keying code.

Specially keyed items are not available display packed, eg 007FBDP or 007FBKA.

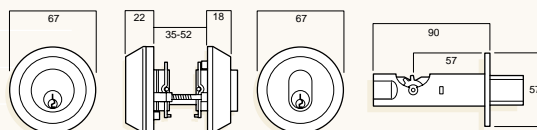

007 Double Cylinder

Outside: locked or unlocked by key.

Inside: locked or unlocked by key.

60 mm backset, display pack 007DP

Refer to ordering procedure.

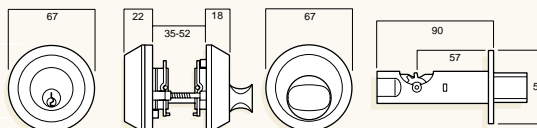

008 Cylinder and Turnknob

Outside: locked or unlocked by key.

Inside: locked or unlocked by turnknob.

60 mm backset, trade pack 008

Refer to ordering procedure.

Deadbolts

777 Series Tubular Deadbolts

Features & Specifications

777 Series Deadbolts are suitable for residential and commercial applications.

These deadbolts feature a positive deadlocking action and concealed cylinder rose fixing via a key-operated protector plate.

This series is available in a comprehensive range of finishes.

Positive Deadlocking

A unique feature is the secure and positive deadlocking of the bolt.

360° key rotation drives the bolt to the deadlocked or unlocked positions.

The key cannot be removed until the bolt is fully deadlocked or unlocked.

This feature prevents any unauthorised manipulation of the bolt.

Security Fixing

When deadbolt is in either the locked or unlocked condition, access to cylinder rose fixing screws is prevented by a hardened steel plate which is housed in the interior rose assembly.

Access to cylinder rose fixing screws is obtained by inserting the correct key into the inside cylinder and rotating the key until the access windows in the protector plate are visible. Cylinder rose fixing screws can then be adjusted by the use of a hexagon shaped key-wrench.

Patent Protection

The Lockwood 777 positive deadlocking action is covered by Australian Patent 548064.

Materials

High purity zinc alloy roses.

Zinc plated steel pressings and pressed brass trims.

Backset

60 mm.

Bolt

Solid brass, 25 mm projection.

Fitted with hardened steel roller insert.

Door thickness

35 to 50 mm.

Cylinder

5 pin tumbler mechanism.

Brass cylinder and brass barrel.

Standard Finishes

Bright Chrome	CP
Satin Chrome	SC
Florentine Bronze	FB
Polished Brass Plate	PBP

Lockwood Guarantee

Lockwood Security Products Pty Limited ("Lockwood") guarantees its products against defects in workmanship and materials. If within the normal working life of a product it is found to be defective, Lockwood will supply the same or an equivalent product free of charge.

All electrical components used in our products are guaranteed for a period of five years from the date of manufacture. Lockwood however, assumes no liability under this guarantee for the following:

1. Improper installation or failure to follow fitting instructions.
2. Failure due to improper maintenance or fair wear and tear.
3. Indirect or consequential loss or damage.
4. Cost of removal and/or replacement.

5. Cost of freight and/or travelling time.

6. The plated finishes, Florentine Bronze, Architectural Bronze, Polished Brass, Gold and Satin Brass are classified as soft finishes. As deterioration is possible under some climatic conditions, these finishes are excluded from this guarantee.

7. Any modification to a product as supplied, or repairs, unless authorised by Lockwood.

8. Use of replacement parts other than authorised parts.

9. Malfunction or failure of the product due to the use of non-genuine Lockwood parts.

Nothing in the Lockwood guarantee excludes, restricts or modifies any condition, warranty, right or liability implied or protected by law where to do so would render the Guarantee, or any part of it, void.
